Bridging the Gender Gap: Disparities in NIH Funding for Female Surgeon-Scientists

31

Gender Disparities Among Young Surgeons during Transition into Practice

A survey was administered to surgeons who became members of the American College of Surgeons in the last 5 years, to evaluate for gender-related differences during the transition from surgical residency to practice

Of 853 respondents, female surgeons were less likely to report...

Gender Equity in Leadership Positions of Brazilian Surgical Societies: a long road to go

Gabriela Salzano Silva (@gabissalzano), Julia Linsowski, Gabriela R. Brandão, Amanda V. Alves, Camilla R. d. A. Brasil, Ana L. K. Komopka, Sarah B. Motter, Federal University of Health Sciences of Porto Alegre (@ufpalega)

In an attempt to verify and analyze the gender distribution across the boards of 10 Brazilian surgical societies in 2020, available online data about the current leadership positions was compiled and analyzed. Binomial test was performed with SPSS statistics.
